

To enable us reach as many people as possible especially the reading public. We publish magazines, tracts and books. Our publications are both for believers and unbelievers alike. Through them we educate and inform believers of their responsibilities and also teach sound biblical doctrines. Our tracts are gospel preaching hand-out for the believers: they are available in Yoruba and English Languages.

We send our our magazines and tracts freely to people every where and we receive encouraging feed backs from our readers. The responses of our readers have made us to know and believe that God is blessing His people through them. We shall continue to serve humanity through this medium as the Lord provides the funds. We know the impact of the printed-page on the people. We realize the might of the pen. We acknowledge its revolutionary, effectual and prevailing power.
