

In order to be "rightly dividing the word of truth" those who will do the work of God need to be trained. It is no mere job to be handled anyhow and carelessly. Because of this, the ministry has set up a training school and also jointly sponsors training of men and women with other christian

bodies for the Lord's service. Part-time and full-time training programmes are available for males and females. We receive trainees from various churches and after the training send them back to their Churches for the implementation of what they have learnt. The training is such that could be held anywhere.
